

Only Time

A year has come and gone
It's amazing how fast it went by
The pain is still here and daily I still cry

I think of you every day my son
Last thought before I sleep and first thought as I wake
I often wonder how much of this can I take

Life without you has made my world different
It used to be happy, full and filled with joy and fun
But things have changed without you Jarret; my only child; my only son

We created many wonderful memories I'll treasure forever
You Jarret, are in an extra special chamber of my heart
We'll always be connected and we will never grow apart

Time is only between us Jarret, you're there and I'm here
But time goes by fast and I will see you once again
Peace out until then Jarret, my loving son and my best friend

Mom
